General Information

Shaw's 22-0-6 with Pendimethalin is a herbicide and turf food combination which controls annual grasses and other weeds while providing three way feeding. This product also contains Gro-Gard, a proprietary blend of two bio-active amino acids and co-factors; it activates key amino acids that help regulate nutrient movement between plant cells. And with greater nutrient availability, plants can achieve their full genetic potential for growth and vigor. Gro-Gard protects your turf, optimizes nutrient uptake and movement within plants, and enhances overall plant health.

The following settings are approximate for applying contents of this package. Settings are based on average walking speed. Reduce settings for slower speed and increase for higher speed. Check your spreader on 250 sq. ft. and adjust to apply ¼ of 1,000 sq.ft. rate. PLEASE NOTE: These settings are furnished as a starting guide only.

RATES ARE FOR POUNDS PER 1,000 SQ. FT.

Spreader Settings	4.00 lbs.
Scotts R8A	I
Lesco High Wheel	F-G
Spyker 24-44	3 ¾-4
Prizelawn CBR-II	3 ¾-4
Earthway 2400-SS	16

Application Instructions

Best results are obtained when applied two weeks before germination of annual grasses.

IMPORTANT: Water lawn within one week after material is applied. Apply at a rate of between 3-5.3 lbs. of product per 1,000 sq. ft.

IMPORTANT: Read the entire directions for Use and Conditions of Sale before using this product. **FOLLOW DIRECTIONS CAREFULLY.**
