

31-3-15

With Nitrate of Potash

WATER SOLUBLE FERTILIZER

NET WEIGHT 25 LBS. (11.36 KG.)

Guaranteed Analysis

Total Nitrogen(N)..... 31%
 .58% Ammoniacal Nitrogen
 25.99% Urea Nitrogen
 4.43% Nitrate Nitrogen
Available Phosphate(P₂O₅)..... 3%
Soluble Potash(K₂O)..... 15%
Derived from: Urea, Ammoniated Phosphate and
Nitrate of Potash.

General Information

Shaw's™ 31-3-15 is a premium water soluble fertilizer that is designed to dissolve quickly and with regular use provide needed nutrients for plant growth and color.

This product can be used on High Quality Turf landscapes, seedlings and greenhouse cut flowers.

Apply this product with rates shown based on your fertilizer program and spray system.

Application Instructions

GREENS "SPOON FEEDING"

Dissolve 13 oz. product for each 1000 sq. ft. of tank coverage to achieve .25 lb. Nitrogen. Calibrate your sprayer to determine rate of water per 1000 sq.ft. Vary your rates based on your Agronomic Program.

LAWN CARE

Dissolve 2 to 3 lbs. product per 1-1/2 to 4 gal. water and apply to 1,000 sq.ft. Vary rate depending on weather conditions and desired plant growth. These rates will supply between .62 to .93 lbs. Nitrogen per 1,000 sq.ft.

TREE AND SHRUB CARE

Dissolve 4-1/2 lbs. of the product per 7-1/2 gal. water and apply to 1,000 sq. ft. either by root injection on 2-1/2 ft. centers under tree drip line with injection of 6 oz. liquid per site, 6" to 10" deep or by drench application to bed areas. (Note: Keep liquid off of foliage and use drench method in mulched beds.)

CUT FLOWERS

Beds: Dissolve 5 lbs. products per 100 gal. of water to cover 900 sq. ft. Reapply every 21 days or as needed. **Greenhouse:** Dissolve 2 lbs. of product per 100 gal. of water to cover 450 sq. ft. Reapply every 7 days or as needed.

PLEASE NOTE: These settings are furnished as a starting guide only.
