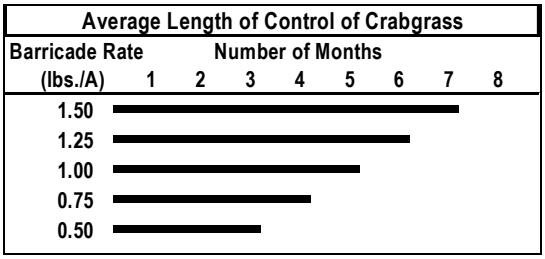
General Information

Shaw's 17-0-0 with Barricade® 28 is a premium grade pre-emergent herbicide and turf food combination. Formulated for the demanding turf professional that wants season long control with one application of annual grasses and many common weeds depending on use rate. Barricade® 28 offers the turf professional these unique features vs. the other "DNA" type pre-emergents.

*Almost Zero Staining Potential.
*Low Levels of Active Ingredient Reduce Environmental Loading.
*Ability to Vary Length of Control with Rate.
*Low Product Solubility so Barricade Stays in Place.



The following settings are approximate for applying contents of this package. Settings are based on average walking speed. Reduce settings for slower speed and increase for higher speed. Check your spreader on 250 sq. ft. and adjust to apply ¼ of 1,000 sq. ft. rate. **PLEASE NOTE**: These settings are furnished as a starting guide only.

RATES ARE FOR POUNDS PER 1,000 SQ. FT.

Spreader Settings	4.00 lbs.
Scott's Evergreen 18"	9-10
Scott's Speedy Broadcast	L-M
Earthway Broadcast	20-21
Earthway Drop 18"	13-14
Lesco	L-M

Application Instructions

Apply uniformly through suitable, calibrated commercial application equipment. **ESTABLISHED TURF:** This product is a selective pre-emergence herbicide that, when properly applied, will control certain grass and broadleaf weeds in established grass turf. The species of turf grass determines the maximum amount of material that may be applied during a year. Most effective weed control in turf grasses will be obtained when this product is activated by at least ½ inch of rainfall or irrigation within 14 days after application and prior to weed germination. **IMPORTANT:** Read the entire directions for Use and Conditions of Sale before using this product. **FOLLOW DIRECTIONS CAREFULLY.**
