General Information

This product is for use on home lawns, golf courses, parks, roadside, athletic fields, all ornamental and recreational turfgrass. This product may be applied to the soil at the same time as sowing the listed varieties of grass seeds or the listed varieties of grass seed may be sown after the product has been applied. This product may be applied to the turf before emergence of weeds and will control susceptible weed seedlings for an extended period. Preemergent applications of this product can be made after sowing seed and before the emergence of grass seedlings.
